### Instructions on poster structure

Posters will be displayed during the symposium, and Poster presenters will be expected to give a five-minute presentation at the session "My Poster in 5 Minutes" to encourage visitors to their poster. Poster presenters are expected to:

- Bring the poster to be exhibited in the symposium
- Submit a PDF file of the poster at the journal platform
- Provide brief concise descriptions of the poster during the poster session
- Be prepared to elaborate on the poster during the poster session

**Display:** the posters will be displayed during the symposium.

**Content:** A poster should be able to stand alone (i.e. be understandable even if the presenter is not present). To meet the stand-alone criteria, it is suggested that presenters consider the following structure of their poster paper, if appropriate:

- Title, author(s), affiliation
- Introduction or abstract
- Objective, purpose, goal, etc.
- Text, tables, block diagrams, data, sketches, figures, photos, etc.
- Conclusions
- References, bibliography when applicable

**Poster Title:** the title should be the same as of the proposal.

**Authors:** authors' names and affiliations should appear in a letter smaller than the one used in the title.

**Tables, graphs and images:** tables, graphs and images should be self-explanatory.

**Size:** posters should be in A0 format (1189 x 841 mm), vertical, and its content should be clearly visible from 1,5 meters distance.

**Authors' contact:** It is recommended that presenters attach contact information below the poster for attendees interested in obtaining more information. While handouts and supplemental materials are helpful, you may wish to instead provide a sign-up sheet for names and addresses of conference attendees who would rather receive that content electronically.

**PDF file:** a PDF file should be provided by August 31, 2019, submitted at the journal platform.
